

ABI's AccessaBath™ Bath Safety Shower Kit

[ADA Compliance](#) | [AccessaBath™ Specifications and Order Form](#)
[AccessaBath™ Drawings](#) | [AccessaBath™ Installation Instructions](#)

The AccessaBath™ is an affordable shower stall and shower enclosure solution for the physically challenged who have mobility or safety concerns.

It is easy to use. The physically challenged can bathe in **comfort** while enhancing the **security** of the bathing experience.

AccessaBath™ is your complete bath safety solution.

- Reinforced AmeriWall™ acrylic panels look like 4" textured ceramic tile with simulated grout lines.
- No grout to encourage mold or mildew
- Cleans with mild soap and water
- Interlocking leak proof corner seams

Other features include:

- Wheelchair accessibility
- Wheelchair ramp and flexible threshold
- Padded folding seat with stainless steel frame
- Up to three stainless steel grab bars
- Single handle chrome plated mixing valve with scald-guard
- Height adjustable shower head that can be hand held
- Quality backed by our 5 year warranty

AccessaBath™ model AB603072SA Bath Safety components [FOR PRICING CLICK HERE](#)

The AccessaBath™ is the ideal solution for residential and commercial property owners who want to consider bathing safety issues. The user can bathe in a wheelchair or on the folding seat, use the bath safety grab bars to steady themselves, and clean and rinse with the hand-held bath safety shower head and hose.
